

THORNHILL TO REPLACE BYRNE

Open House Cancelled To Avoid Interference With Defense Projects

Committee Considering Course Exhibits Plan To Replace Biennial Three Ring Circus

The 1942 edition of Technology's biennial Open House scheduled to be held in the spring, has been cancelled, it was learned at last night's meeting of the Institute Committee. Fearing conflict between Open House and the Institute's defense efforts, the committee in charge recommended that the program be cancelled, and this recommendation was approved by the Corporation, Daniel G. Hulett, '42, Chairman of the Open House Committee, reported to the Institute Committee.

Hulett stated that it seemed that the time and energy needed for the Open House program could more profitably be expended on the various defense projects around the Institute, and that these projects would surely suffer if the usual Open House program was planned.

As an alternative plan Hulett suggested a series of course exhibits to be held in one of the main lobbies. Each of these would be planned by a faculty member, and constructed by student members of the various courses.

Students Form New Orchestra

M.I.T. Music Club Sponsors Organization; 20 Men Show Interest

After four years without a school orchestra of any size, Technology will once more have an organized student orchestra group. Under the sponsorship of the M.I.T. Music Club, 20 men held a preliminary meeting last Wednesday evening in Litchfield Lounge to form such an organization.

Mr. Henry Jackson Warren, who is to serve as conductor, explained the status and aspirations the society would hold. In the auditions which were then held Mr. Warren noted the exceptional interest, experience, and playing ability exhibited by those present.

Men with orchestral ability who are interested in symphonic music should attend the next meeting to be held at 7:45 P.M., Wednesday, October 22, in Litchfield Lounge. The total membership of the orchestra is expected to

(Continued on Page 4)

Mudge To Speak On Nickel Alloys

Doctor W. A. Mudge, of the International Nickel Company, Inc., will discuss the welding properties of nickel alloys on Monday evening, November 3, at the Institute.

In his lecture, Dr. Mudge will speak on the manufacturing, properties, fabrication and uses of nickel and high-nickel corrosion-resisting alloys. The discussion will take place before a joint meeting of the Boston sections of the American Welding Society and the American Institute of Mining and Metallurgical Engineers.

In connection with the lecture, the film "Nickel High-Lights" will be shown by Dr. Mudge's assistant, K. M. Spicer. Mr. Spicer is also with the International Nickel Company.

Compton Airs Defense Work

President Explains Technology's Role In Defense Research

At the first open forum of the Debating Society, President Karl T. Compton described the efforts of the Institute to aid in National Defense. The talk was divided into three main categories; the activities of Institute staff members; training course to meet Army, Navy and Industry requirements; and research work done at Technology.

There are 200 staff members putting full or the majority of their time in defense teaching projects or research work, and the Institute pays about \$250,000 in salaries to these men, as a monetary contribution for National Defense. Some of the staff here are on the payroll of the Federal Government.

Extremely active in the work caused by the National Emergency are Dr. Compton, Dean Robert G. Caldwell, Dean Edward L. Moreland, Dr. Jerome C. Hunsaker, Professor Douglas V. Brown, Professor James M. Holt.

In engineering schools, the country over, there are 125,000 students enrolled in defense training courses, of which 12,000 are graduate students. At Technology, 927 students are enrolled in 27 courses, the majority of whom are graduate students. To continue these courses Congress appropriated \$9,000,000 to the U. S. Office of Education.

Research work, done at the Institute, is organized under the Na-

(Continued on Page 4)

Voss Optimistic On Construction

Professor Says That Outlook For Builders Appears Encouraging

Commenting on the recent OPM ban on non-essential construction, and the general effect of the present defense effort on the construction field, Prof. Walter C. Voss today presented an optimistic picture of the opportunities for embryonic young architects and engineers.

Prof. Voss, head of the Institute's department of Building Engineering, stated that the demand for trained men in fields of defense work provided an opening for young men to train themselves and prepare to take part in the period of reconstruction. He also mentioned that the new, increase of available money in the form of bonds and savings will eventually be spent on homes, and home equipment.

(Continued on Page 2)

Scabbard And Blade To Hold Smoker Tuesday

Scabbard and Blade, Technology's honorary military society, has scheduled smoker, which will be held at 7:00 P.M., on Tuesday, October 21, in Pritchett Hall of Walker Memorial.

All students eligible for membership in the organization—those men enrolled in the advanced R.O.T.C. course—have been personally invited to attend this meeting, at which refreshments will be served.

Budgets For Activities Should Be Submitted

Those student activities which will need financial support during the coming year should submit a budget to the budget committee immediately it was announced at the Institute Committee meeting last night.

The budget should include an estimation of expenses and receipts expected during the school year. This statement should be transmitted not later than Thursday, October 23.

Acquaintance Dance Scheduled Tonight In Walker Hall

Catholic Club Asks Twelve Hundred Girls To Annual Affair

Feminine ushers, twenty-five of them, will highlight the Technology Catholic Club's annual Fall Acquaintance Dance. The affair will be held from 9 P.M. to 2 A.M. this evening, in the main hall of Walker Memorial.

Twelve hundred girls from local colleges such as Simmons, Radcliffe, Boston University, Teachers' College, Regis, Framingham, Emerson, Massachusetts Art, and Lasell have received written invitations from the Catholic Club, and from present indications, the girls will outnumber the men. The dance is strictly stag for members of both sexes, and the ushers will introduce men to their chosen dancing partners.

Rutter And Rae Speak At Smoker

Debating Society Gets Forty Members For Coming Year

Consistent with its growth in the past few years, the Debating Society announced that it has taken in forty new members, an all-time record for the organization. The drive for new members was culminated last week at a smoker held in Walker Memorial. Mr. John B. Rae and Mr. Peter Rutter, both of the English department, were guest speakers at the smoker, which was highlighted by a farce debate with the girls from Emerson College. The topic of the debate was "Does the Future Look Dark?"

To give the new men a chance to begin debating immediately and to give the coaches an idea of the present abilities of the members, a series of eight practice debates will be held next week beginning next Monday and continuing through Friday.

Two Hundred Meeting Here To Discuss City Housing

Two hundred members of the Urban Land League are meeting at the Institute this week to discuss city housing problems and post-war replanning of urban areas. Dean Walter R. MacCormack of the Department of Architecture acted as chairman at the opening sessions.

Cooperation between the private builders and real estate men who make up the group and various governmental agencies with a view to providing better housing and better planning of cities was to be the general topic of the convention, according to Dean MacCormack.

Field Day Band Contract Dissolved Yesterday As Dance Improvement

Sophomore Prom Options On Sale At Noon Today

Gene Krupa Will Supply The Music For Formal Affair

Options for the Sophomore Prom go on sale today in the Main Lobby of Building 10 at \$2.50. The dance, featuring the music of Gene Krupa and his orchestra, is to be held on Friday, November 14, in the Imperial Ballroom of the Hotel Statler.

Under the leadership of Langdon S. Flowers, president of the Sophomore Class, the sales and publicity committees have been working to make the affair a success. The sales committee, under the leadership of Chairman Sten Hammarstrom, is composed of Perry W. Wilder, Kenneth W. Nelson, Garry C. Myers, James Woodburn, Jr., Alan S. Michaels, Gerald Dennehy, Beverley B. Tucker, Caleb S. Taft, Andrew M. Vallone, E. Judson Cole, Austin P. Dodge, John Flanagan, Robert A. Plachta, Donald B. Phillips, Americo F. Almeida, Martin King, Bruce T. Beneppe, Thomas W. Carmody, William M. Wallace, Ralph S. La Vallee, Samuel D. Parkinson, Howard Weaver, Richard R. Wareham, and Edward Chalmers, Jr.

To compete with Claire Nevulis, who is selling tickets to the Field Day Dance, Publicity Chairman Lewis Tyree has promised a novel advertising campaign, including many spicy posters by Arthur "Salty" Peterson. Other members of Tyree's committee are T. Gary Loomis, George A. Schutte, Robert D. Peck, Walter P. Swain, Jr., George Rosenblatt, Malcolm G. Kispert, Eugene A. Schnell, and Frank E. Carroll.

Freshmen To Name Candidates Today

Nominations for freshman council positions will be held today and tomorrow in freshman sections, instead of the previously announced time, Franklin P. Seeley, '42, chairman of the Elections Committee, stated last night.

Elections to the freshman council, however, will take place on Tuesday and Wednesday of next week, regardless of the change in nomination times. Further nominations can be made immediately preceding the elections.

Sale Of Options To Be Continued Until Next Week In Main Lobby

Claude Thornhill, topflight band leader, is to replace Bobby Byrne as Field Day maestro, it was announced last night by Gordon H. Hill, '42, dance committee chairman, after the original contract with Byrne was dissolved by mutual agreement.

Thornhill, who is now playing at Glen Island Casino, on Long Island Sound, will journey directly from the Casino for the one night engagement which is to be his only outside appearance until January.

Because of the sudden change to the more popular band, option sales for the affair will be continued next week or until the limited number is sold. Students who wish to turn in their options because of the change of bands may do so at the sales desk in the Main Lobby between 12 and 2 P.M. daily.

Prices of tickets have not advanced from the \$2.50 option-\$2.50 redemption scale and will cover both the Field Day Dance and the informal Hangover dance to be held in Walker the next night.

New Faculty Men Will Be Received

President Compton To Introduce Eight To Present Staff

Eight new members of the faculty of the Institute will be introduced at a reception to be given by President Karl T. Compton and Mrs. Compton at the President's house on Charles River Road on Saturday evening, October 18.

In the receiving line with Dr. and Mrs. Compton will be Colonel Edward W. Putney and Mrs. Putney, Dr. and Mrs. Francis O. Schmitt, Dr. Richard S. Bear, Dr. and Mrs. Paul Pigors, Dr. and Mrs. Bernhard Haurwitz, Dr. and Mrs. David F. Waugh, Mr. and Mrs. Cecil E. Hall, and Dr. John J. Gibbons.

Chief usher for the reception will be Professor Ralph G. Hudson who will be assisted by Professors Herbert L. Beckwith, Ross M. Cunningham, Harold E. Edgerton, Robley D. Evans, Edmund L. Gamble, Edwin R. Gilliland, Joseph H. Keenan, Richard F. Koch, W. Rupert MacLaurin, George C. Manning, William T. Martin, Arthur C. Ruge, John T. Rule, Howard R. Staley and John W. Williams; Mr. Sterling Lanier, Mr. Donald P. Severance, and Major Edward C. Harwood.

Beaver Club Plans Meeting Monday

The Beaver Club, honorary society of the Junior Class, will hold its first meeting at 9:00 P.M., Monday, October 20, at Steuben's Restaurant.

The purpose of this gathering is to choose ten members of the Class of 1943 to fill the roster of the club. Officers will also be elected to serve for this term.

Fourteen members are expected to attend. Draft cards will be required.

THE REBIRTH OF AN ORCHESTRA

Another Technology tradition, the M.I.T. Orchestra, shows signs of resurrection after several years of regretful dormancy. It should be gratifying to the student body as a whole to see that this organization is again trying to be active in the extracurricular life of Technology.

Auditions were begun last Wednesday and will be continued this coming Wednesday to determine which students have the ability and training required to play in the orchestra. An orchestra established by this method should be very valuable to supplement the Glee Club and the String Quartet in upholding the Institute in the musical world. The Glee Club has earned an enviable reputation in college glee club circles during the past few years and the year old String Quartet presented several concerts of professional excellence last year.

While one of the contributing factors to the failure of the orchestra several years ago was the fact that the personnel had not been properly selected, present plans indicate that this fault is being remedied. Only those students who have sufficient training to play the type of music offered by a college orchestra will be taken and a school the size of Technology must certainly have many students who possess this ability.

As soon as the orchestra has practiced enough to play together well, it should hold joint concerts with the Glee Club as well as concerts in its own right. It will add immeasurably to Technology's position in extracurricular relations with other schools, the faculty, and music loving citizens.

The orchestra is particularly fortunate in having a director of the calibre of Mr. Henry Jackson Warren. Mr. Warren deserves the thanks of the student body for his willingness to add the duty of conducting the orchestra to that of directing the Glee Club. He has been responsible to a great extent for the success of the Glee Club, and with suitable material with which to work, a similar success with the orchestra should be inevitable.

However, it is to be hoped that the success of the orchestra will be more largely due to the support of the student body than that of the Glee Club. In the past the Glee Club has had larger audiences at their visiting concerts than they have had at the ones here at the Institute, certainly a shameful condition.

For those students who can and enjoy playing good music, the rejuvenated M.I.T. orchestra is the logical outlet.

HELP WANTED!!!

Each year a sizable percentage of the student body takes an active part in the Institute's large sporting program, both intramural and varsity. Although our sports teams are not always champions they always uphold the tradition of clean sportsmanship and a game well played.

We are proud of the large number of students that take part in athletics and the fact that it is entirely amateur. It has been a Technology tradition that sports are for the benefit of the students and not for records and championships.

However, while we think that the non-subsidization of athletics is the only policy for the Institute, we do feel that a little more could be done for the fellows who do spend time and energy for sports teams. At present, it costs each student a small but noticeable sum to take part in the sports program. The main items are the locker and towel rentals. While these are relatively small items, coming at a time when it is necessary to buy books and supplies it does represent a sacrifice on the part of many students and even prevents a few students from taking part in a sport.

There seems to be no real reason why the Institute could not supply these two services to members of recognized teams. It should be easy to set aside a certain portion of the lockers for the use of the various teams' personnel and an adequate number of towels available for their use. Most other schools give this service to their athletes.

A MILD REPRIMAND

Below in this column appears the one and only comment that has been received concerning the abolition of final examinations as the means of determining grades. We feel that this is a problem that does deserve discussion and student comment and plans are being formulated for a canvass of faculty opinion on the subject.

THE READER SPEAKS

Final Exam Comment

Editor, The Tech.

Dear Sir:

In the days of the ancient Greeks, in fact until beyond the Middle Ages when universal education became important and schools more numerous, the system of study and teaching was far different than it is today. In those days the few individuals who had the desire and opportunity studied only because they wanted to learn. There were no such things as studying a subject only because it was "required," or just to get a degree, or just for the marks. There were no "final exams" as we have them today.

The teacher in those classical eras would pass on to his pupils such information as he possessed. He would keep track of their progress by informal questions at each session, or by the manner in which they participated in group discussions.

The teacher didn't rely on a final examination. (It would be interesting really to find out when the formal final exam as we know it first came into being, and under what circumstances.)

This brings me back to the present and in particular to your editorial in the last issue of The Tech advocating the abolition of finals here at Tech. By referring to the Classical method of education I don't mean to imply a "back to the good old days" policy purely from a nostalgic point of view. But it is only intelligent to realize that at that time a student studied for what he could get out of it, and with no final exam to worry about flunking or to get him into the bad habit of putting off study to the last minute.

Going back to that old system here at Tech would enable those students with such desires to study for the sake of the knowledge to be gained without jeopardizing their standing because of a mishap in the finals. It would also get the other students into the healthy habit of studying and reviewing continuously throughout the term, instead of relying on the outmoded "final exam tradition."

Here's hoping the Institute will soon adopt the policy of a series of cumulative exams throughout the term in place of the all important final. It would also be interesting to hear what other students and in particular what faculty members have to say about this subject.

Sincerely yours,

MEMBER OF CLASS OF 1942

Editor's Note: The Tech is proceeding with plans to canvass the faculty for their opinion concerning the abolition of final examinations. The Tech would also appreciate any comment by faculty members and students in letters to the Editor.

For Boys To Play

by Stewart Rowe and Joseph Tankoos

Yes, indeed! Things are looking up. It looks like Technology's old spirit, the real Technology, is finally taking hold after wallowing in the dim beyond for innumerable weeks. Even though Boston, bless her, the Center of Culture, the Hub of the Universe, the Athens of America, still has the same sterile entertainment fare, Tech men are swinging into action.

Tonight, the Delts' roller skating party: at the Winter Garden Rink, which is in Dorchester and which you can't miss if you start down Route 3 to Quincy, the brawl will start at 11 and run on into the night. This is our best bet for a smooth evening.

In case you haven't a date, or are new around here and are looking for some good women for future dates, the Catholic Club is running an acquaintance dance tonight in Walker. Mass importation of a bevy of beauties from local educational emporiums promises a broad choice "for your dancing pleasure."

Gripes are likely to be few and far between over the announcement of the Field Day Dance Committee about the change in their band. Those of us who haunt the environs of Rye have seen and heard much of Thornhill and his smooth music this summer. We think the change—all other things being equal—is definitely for the better.

Two in two weeks is hard on the bankroll, but we don't think anyone should miss the Sophomore Dance. Last year Krupa was here for the same affair and if you ask any '43 men they will all say that his was the best orchestra to play here all year. There was that fifteen-minute jam session, but there was also "The Sweetheart of Sigma Chi" and "Stardust" and sweet music aplenty. It was really a slick dance and Krupa's return promises a repeat performance this year. Don't miss it!

In the line of new night spots in town we have been hearing about the Rio Casino, which turns out to be a place down on Warrenton Street (you find it, we can't). Somewhere near Stuart and Washington Streets, anyway. Minimum of one-fifty on week-

days, two dollars on Fridays, and two-fifty on Saturday evenings. Too steep for us, but if you feel flush some week-end you might try it. The orchestra has been around town for quite a while, and is supposed to be good.

We couldn't quite suppress an irreverent snicker yesterday afternoon when we saw this on a Tech Bible Study Group poster:

NOVARS START AT LOWELL

Untried Team Gridded Against Lowell Textile In Starter Away

In their season opener tomorrow the Novars will be in Lowell, to tackle Lowell Textile. The untried Tech team will face the more experienced but not too powerful Lowell gridders. "As Lowell has lost its last two games by wide margins 54-6 and 39-0," said Coach Hunt last week, "the Beavers stand a pretty good chance of coming out on top."

Starting Lineup

Out of the twenty-nine Juniors and Seniors on the squad, the following starting lineup has been drawn up:

Dunwoody	R. E.
Fleming	R. T.
Anisz	R. G.
Foote	C.
Given	L. G.
Sadowski	L. T.
Evans	L. E.
Leader	Q. B.
Bunn	L. H. B.
Fabacher	R. H. B.
MacBride	F. B.

Nine of last year's squad are back for a second season with the Novars. They are Bob Given, Dick Small, Earle Foote, Frank Seeley, Bob Evans, Bob Crosby, and Bob Fabacher, Monk Bunn, and Johnny Arnold.

On November 1 the Beavers face the Tufts Jayvees. Armistice Day will see the Novars tangle with the Fore River Apprentices. On November 11 Tech's gridders tackle the Crimson Jayvees, and later tie up the season in a game against the B. U. freshmen.

Tech Booters Lose To Brown After Fast Start

Varsity To Play Trinity Tomorrow In Last Home Game

After suffering a defeat at the hands of Brown last Saturday afternoon, the varsity soccer team goes into action tomorrow against Trinity in its last home game. The score of the Brown game was 3-1. After a fast opening period in which Technology bucked a stiff wind, the score stood at one all. The wind gradually shifted across the field, while Brown scored two more goals in the second period.

According to Captain Robert J. Fay, '42, the team was playing well, but just didn't have the extra power necessary to put in the needed goals.

The team in addition to the game with Trinity tomorrow, has quite a complete schedule ahead which consists of a game with the Coast Guard Academy at New London on October 25, followed by an engagement with Connecticut on November 1. The team goes to Springfield for a game on November 8, and plays Harvard on their field on the 11th. The soccer season is closed on November 15 at Hanover, N. H., with a game against Dartmouth.

Football Lineup

No.	Player	Pos.
1	Leader	Q. B.
2	Coles	H. B.
3	Foote	C.

29	Fleming	T.

Field Day Trials To Start Monday For Trackmen

Sixteen Runners From Each Class To Be Selected

The 1941 track season is well under way, as the freshmen and Sophomore runners prime themselves for the time trials to be held on Monday. The first handicap meet of the season was held last Saturday on Briggs Field to try the newcomers and give last year's men a chance to test their mettle.

The tryouts on Monday will determine the sixteen runners from each class who will compete in the Field Day meet. After this group is chosen, Coach Oscar Hedlund plans to drill them intensively in the art of passing the baton without losing time. He said that the Sophs have proved their superiority at this in past years, and that it has contributed largely to their success.

The handicap meet last Saturday proved good material in the freshman class. Warren Spear, '45, turned in a stellar performance in the three-quarter mile race by winning from Captain Gene Brady in 3.26.0. Norm Beecher, '44, placed first in the 150 yard sprint, while Larry McKee, '44, raced to a win in the short dash. Jack Adams, '44, topped the high jumpers with a 5 ft. 10 in. leap, and the squad in general showed up well, according to Coach Hedlund.

Northeastern Bows To Gobs In Dinghy Race

Yesterday's Win Is Fourth Straight For Tech Sailors

Sailing in a fairly stiff breeze with the Community Sailing Association boats, the sailors of the Nautical Association defeated Northeastern University last night, to bring the record for the past week up to four wins in as many meets. Technology was represented by Sidney F. Greenwald, '43, C. Albert Lau, '42, and John T. Carleton, '42. This meet was run at the same time as one in which Harvard defeated the Community Sailors.

Last Sunday the Institute sailors swept two regattas from Harvard, Williams, and Northeastern. In the morning races Commodore Thomas T. Crowley, '42, led the racing with 42 points, followed closely by Hans W. Aschaffenburg, '42, and Jerome T. Coe, '42, to bring the total to 108. Harvard was second in this series with a total of 84 points, followed by Williams and Northeastern in that order.

Second Victory

On Sunday afternoon the Nautical Association scored another victory over the same opponents, this time with a score of 100½ points, with Williams second scoring 93 points, and Harvard with 89½ points.

The freshmen also had a meet this week, defeating Harvard, Northeastern, and the Community Sailing Association. Although John Bodge of Northeastern was top scorer, Richard Merrow, '45, placed third with 30 points and Kenneth Foster, '45, fourth with 20 to bring Technology's total to 50, while Harvard and Northeastern each only had 46.

Vose Cup Standings

Having run four races, the standings for the Vose cup is led by Jerry Coe, with 89.5% although he has only competed in two races. Hans Aschaffenburg stands second with 79% after having sailed in all the races. Next Sunday the sailors of the Institute will compete for the Jack Wood Trophy, along with those of Brown, Dartmouth, and Harvard.

Swimming Team Rally Planned For Tuesday

The swimming team's rally for all students interested in either the freshmen or varsity teams will be held at 5:00 P.M. Tuesday Oct. 21 instead of last Thursday as originally planned.

According to coach Jack Jarosh, the freshmen are heavily favored to win the Field Day swimming meet. They are coming along fine, while the class of '44 has only a small group reporting.

Runners To Meet State Tomorrow In Franklin Field

Cross Country Men Fresh From Victory Over Bates College

The Technology runners will encounter a strong Mass. State cross country outfit tomorrow with a better array of runners than they have been able to offer up to this time. Bill Cochran, able Junior trotter, who has been sidelined because of a foot injury will again be in the lineup. The contest will be held at 2:30 P.M. at Franklin Park in Boston.

The team will enter the meet fresh from an easy victory over Bates on Saturday at Lewiston. Tech men took the first three places to triumph by a 20-38 score. Heinie Shaw took first place followed by Ken Joseph and Malcolm McGregor in second and third places. Shaw made excellent time over the four mile stretch despite the chilly weather and rough terrain.

Crews Hit River For Fall Season

Coach Moch Says Turnout Is Poor In Some Classes

Last Wednesday morning at about 6:00 A.M., some of the hardier men of the Institute student body got out of bed and trudged off to the M.I.T. boathouse, for the first practice of this season. Coach Bob Moch was quite disappointed, in that not all of the six foot 180-pound bruisers, who had raised his hopes at freshman camp, were there.

According to Bob Moch, the individual oarsmen of the varsity crews are rowing better now than last year at the same time. All that is needed is a little time to let the boys get used to rowing together.

Turnout Is Poor

It seems that all of last year's oarsmen have not turned out as yet. The light varsity crew has only had one boat-full of men come out so far, and Bob wants all men under 160 lb., whether they have rowed or not, to come out some morning at 7:00 A.M., at the Institute boat house.

GELOTTE PRESENTS CHROMAT-O-SCOPE

Third-Dimensional Viewer only **3.50**

- Brings life to your KODACHROMES with an amazing "third-dimensional" effect.
- Accommodates either 35mm. Strips or Slides.
- Attractive Design and compact pocket size.

5:45 P.M. Outing Club Trip—Walker.

MONDAY, OCTOBER 20

5:00 P.M. Pistol Rally—Tyler Lounge.
9:00 P.M. Beaver Club Meeting—Steuben's Restaurant.

Institute Committee

(Continued from Page 1)

Hulett's plan calls for the exhibits to be smaller than the usual Open House exhibits, and probably to be confined to showcases and tables.

A motion was then made that the Institute Committee give its approval to this plan. After a short discussion it was voted to table the plan until the Open House Committee should obtain the opinion and advice of various members of the faculty in regard to the matter.

Other business conducted at this meeting included the approval of the election of Daniel G. Hulett, '42, Carthrae M. Laffoon, '42, George C. Marakas, '43, Robert S. Reebie, '43, and Robert W. Maxwell, '43, to the Student-Faculty Committee.

A motion was made that the president of Agenda, Dormitory Sophomore Society, be made a non-voting member of the Dormitory Committee. This motion was tabled, pending further discussion of the move by the Dormitory Committee, with the possibility that the Agenda representative may be given a regular voting position on the Committee.

Franklin D. Mabbett, '43, head of the committee appointed at the last meeting of the Institute Committee to find quarters for the debating society, announced that the Society had taken up its new quarters in a room shared with the Outing Club and T.E.N.

The election of Robert F. Schaeffer, '43, as chairman of the Publicity Com-

mittee of the Dormitory Committee, and of the appointment of Charles S. Ricker, '42, as vice-president of the M.I.T.A.A., were also approved by Technology's law-making body at last night's meeting.

The constitution of the Dormitory Committee was also amended, so that the income from the Dorm Rumor now comes under the control of the Budget Committee of the Dormitory Committee.

Jerome T. Coe, '42, Senior class president, announced the appointment of John E. Flipse, '42, W. Hoover Shaw, '42, and James A. Malloch, Jr., '43, to the Senior Ring Committee. Because of his work as Junior member of last year's Senior Ring Committee Carl L. McGinnis, '42, was appointed special consultant to the Committee.

Technique Is Making Photo Appointments

Seniors may arrange for appointments for Technique and placement pictures from 9:00 A.M. to 5:00 P.M. any day next week in the Main Lobby of Building 10 it was announced last night.

The photographer will be at Technology from October 27 to November 13. This will be the last opportunity for seniors to get their Technique and Placement pictures.

tional Defense Research Committee. The Committee finances the schools on a contract basis, and 4500 contracts, amounting to \$15,000,000 have been given to 100 schools. Medical and mechanical problems are the ones worked on most avidly.

The contracting schools do the work at cost.

The present building projects going

on around Technology are not for the private use of the Institute, but are for government sponsored research. All temporary buildings, such as "Shanty-town", will be torn down as soon as room is provided to carry on the work done in these buildings. The permanent buildings will be bought back by the Institute, at the end of the National Emergency, at a price mutually agreed upon, or at 50% of the cost.

New Orchestra

(Continued from Page 1)

be about 22 and included members from every class including graduate students. Particularly wanted at the present time are the following: 2 violinists, 2 violists, 2 trumpeters, a cellist, a bass player, a trombonist and a man to play the oboe.

Besides presenting its own concerts the orchestra is expected to accompany the Glee Club.
